Division of Epidemiology and Health Planning
Department for Public Health
Cabinet for Health Services

2001 KENTUCKY ANNUAL HOME HEALTH SERVICES REPORT

INTRODUCTION

The Health Policy Development Branch of the Division of Epidemiology and Health Planning announces the release of the 2001 Kentucky Annual Home Health Services Report. This branch, established in July 1996, is now responsible for utilization data collection and reporting required by 902 KAR 20:008. This report shows all census data, age distribution together with total patients served, and patients served by discipline and number of visits. This report is organized by county within Area Development Districts (ADD). See following page for ADD map.

This report covers the services provided between January 1, 2001 to December 31, 2001. Data in this report covers 100% of all licensed home health agencies (126).

Data in this report are organized in three sections. Section I shows beginning census, admissions, discharges and ending census by agency and county of service. Section II shows total patients served by age category, agency and county of service. Section III shows the number of patients served and number of visits for various disciplines (skilled nursing, home health aide, physical therapy, occupational therapy, and speech therapy) for each agency during 2001. The agencies are grouped first by Area Development District then by county served. **ADD totals** appear throughout the report following all county data for each ADD. **Statewide totals** appear at the end of each section. In addition, Section IV contains information and changes regarding individual agencies during the year.

This report now becomes the most recent official data on home health services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$10 made payable to the Kentucky State Treasurer to:

Home Health Services Report Summary

Changes in the home health industry that began in 1999 appear to continue to affect service utilization in 2001. Changes in federal regulations changed reimbursement for agencies and forced agencies to alter business practices. Closures, mergers, and sales of agencies have been more prevalent.

The number of home health patients served in 2001 was 97,906, the second lowest number of patients served in the last seven years. However, the number served is an increase from 2000, the lowest year in the last seven. This number is well below the seven year average (1995-2001) of 103,898 patients served. The number of patients served increased from 1995 to 1996 by almost 13,000 patients then rose again in 1997 before declining in 1998, 1999, and 2000, increasing again in 2001. (See Chart on following page.)

According to hospital discharge data for 2001, 35,165 patients were discharged from Kentucky hospitals to home health services. This number represents 6.3% of the 561,344 total patients discharged from Kentucky hospitals.

When looking at the Area Development Districts (ADDs) individually, six of the fifteen ADDs showed an increase in patients served from 2000 to 2001. Further analysis of these ADDs is warranted.

Data shows that the largest population of patients of home health services was from ages 75-84 consisting of 24% of the total patients in 2001. Patient age cohort 45-64 made up 21% of the patients served and 65-74 made up 21% of all patients served. Patients over 85 years of age made up 15% of the total number of patients served. These figures seem logical since it is expected that as people age; they will require more health services. However, there are less people in the over 85 age group in the total population and many of these may require higher levels of care than can be provided by home health agencies. Analysis of the age distribution among home health patients from 1995 to 2001 shows change over the past seven years. The 45-64 age group has increased in proportion to the other age cohorts.

Charts representing the data discussed in this summary are presented on the following pages.

Kentucky Area Development Districts

2001 Kentucky Annual Home Health Services Report

A faint, stylized illustration of a horse and rider, possibly a jockey, in a racing or galloping pose. The horse is facing right, and the rider is leaning forward. The illustration is rendered in a light gray, almost watermark-like style, serving as a background for the section title.
